

SOCRATES FOR HOMESCHOOLING

“As parents, we know that each of our children is in a different place or level in their education. What makes Socrates unique and so effective is that it recognizes the uniqueness of each child and tailors the course of instruction to where that child is at that moment.”

Jennifer Flynn, Homeschooling Parent

ABOUT SOCRATES

The Socrates E-Learning Platform creates a customized Learning Pathway for each student. This Learning Pathway is a one-to-one match for each student based on their own learning abilities and also their own particular learning style. With Socrates, students learn more and faster!

The National Science Foundation awarded Socrates with a grant in recognition of its unique and significant societal benefit.

WITH SOCRATES

- ✓ Your child has fun while learning up to three times faster
- ✓ You can set your own schedule and times to do homeschooling
- ✓ You know that your child is learning on common core standard aligned categories
- ✓ Its unique “auto-pilot” mode means you can be involved as much or as little as you want
- ✓ You can easily see when your child needs help and how best to give it
- ✓ It just takes a few minutes to set up

SOCRATES FOR HOMESCHOOLING

Your child has fun while learning up to three times faster

Socrates recognizes that all children are unique and learn differently. That's why Socrates makes sure that each child receives the right type of questions based on continuously identifying gaps in their knowledge. To keep learning fun, Socrates has an expansive library of games where children can play while they learn and earn rewards along the way.

You can set your own schedule and times to do homeschooling

Attending lessons at set times is not always possible. As an online education platform, Socrates has the great advantage of being available anytime, anywhere you want. Your children can learn at their own pace and you can review progress or assign additional work, at times that are convenient for you.

You know that your child is learning on common core standard aligned categories

Some homeschooling parents want to know their kids are not missing out on any of the categories available from regular schools. There is no worry about that with Socrates as Socrates provides common aligned categories and, in fact, goes deeper than common core standards.

Its unique "auto-pilot" mode means you can be involved as much or as little as you want

Socrates works for your kids straight away. No complicated set up or training period required. If your child can play computer games, you are all set. Socrates will automatically determine the next question in the learning process for your child. Socrates gives you, as a parent, the option of being involved as much or as little as you want.

You can easily see when your child needs help and how best to give it

With the Homeschooling/Tutor Command Center, you can easily see when your child is struggling and with what topics. You can either ask practice questions directly or set the program to present additional questions to your child.

It just takes a few minutes to set up

As a Cloud-based solution, Socrates is highly flexible, scalable and secure. A study area can be set up with minimal time and effort – usually in just minutes. Being Cloud-based, Socrates can go anywhere and be anywhere that internet is available. No need to worry about updates – you will always have the latest version of the software.

TESTIMONIALS

''

"It's really fun to answer questions and get a break to spend tokens and play games."

Age 6

''

"Socrates is fun! My favorite game is the pizza party."
